Nine French, Belgian Ports Are Pounded By R.A.F. Sharp Aerial Offensive Hits Invasion Bases

Military Targets in Germany and Holland Are Also Struck Blows By British Bombers in Heavy Raids

LONDON, Sept. 23.—Nine French and Belgian ports where German invasion preparations have been in progress were pounded in a sharp aerial offensive by Royal Air Force bomber units last night and this morning, the air ministry announced.

Military targets in Germany and Holland also were attacked, the ministry's communique said. All British planes returned safely.

BLOCKADE OF STORED WHEAT RIGHTING SELF

Change in Situation Relieves Urgency Of Finances

By R. T. RICHARDSON
Business Editor, The Bulletin

OTTAWA, Sept. 23.—Prospects for easing the big wheat storage blockade in Western Canada have changed materially in the past week. It is understood here, and the urgency for financial assistance on farm-stored wheat has diminished.

Mr. A. MacKinnon, minister of trade and commerce, cut short a routine visit and arrived back in Ottawa today, but offered no comment on the wheat situation. "I am going to discuss what I have observed on my brief visit to the west," he told The Bulletin, "with my colleagues of the wheat committee. I can't discuss the situation for the time being."

In the absence of Mr. J. G. Gardiner, minister of agriculture, who is visiting Brandon, Ontario, a session of the wheat committee of cabinet is not likely until Tuesday.

RIGHTING ITSELF

The following factors are understood to have eased substantial influence upon the wheat problem, which reliable opinion holds will begin to right itself as far as storage space is concerned.

Increased space has been found in the west, permitting increases in the original five-bushel-per-acre delivery quota to 10 bushels in some territory. 2. Bushels throughout the west.

Provision of storage space in eastern Canada will be undertaken, in conjunction with the railways, permitting considerable flow of wheat eastward for the remainder of the Great Lakes shipping season.

Greater shipping movement of Canadian wheat to the United Kingdom in the next few weeks, now that the invasion threat and the severity of bombing attacks is diminishing, will draw further bushels out of Canadian elevators.

Mr. MacKinnon has been called back to Ottawa, indicating that important changes in the wheat situation have occurred in the east rather than in the west. The basis of the problem has been attacked here but has been mainly to take the pressure off the local elevators, where the farmer can deliver wheat on the spot price of 50 cents, less freight to Port William.

YEARS STORAGE
Since the Canadian wheat industry, through the federal government, must now face the prospect of storing at least a whole year's supply of wheat in the country, if not more, the advantage of creating storage facilities in eastern Canada is two-fold: it gives railways and lake shipping the grain business, and establishes wheat supplies near the big export flour mills.

The British government has preferred flour to wheat, as precaution against loss of mills during bombing.

Increase of the delivery quota is regarded as a better method of distributing the guaranteed price to the farmers than arranging with adequate safeguards to store on farm-stored wheat. The boost from \$2.50 to \$4.00 per acre in income to all farmers. In some districts, the quota is up to 15 bushels. Once the farmer obtains the fixed price by storing the wheat, he can then make a question of an advance agent. Internal "market" of the wheat to the west.

"Victory Will Come"

In a message broadcast to the world, King George today asserted that victory would assuredly follow present trials and praised the fortitude shown by all the British people.

LONDON, Sept. 23.—Royal Air Force bombers, methodically scouring the German-held invasion coast across the English Channel, through darkness, have blasted a 400-mile path of flames and destruction along the last 24 hours. It was announced last night.

The raids began in daylight Sunday from France to Germany, and were kept up by wave after wave of bombers through the night and into the early hours of Sunday.

NO BRITISH LOSSES
Its report described bombs as bursting in flames and falling in showers, and the lights of the Channel and North Sea from France to Germany. British planes returned despite the "furious fusillade" of German anti-aircraft fire.

The Netherlands ports of Rotterdam and Flushing, the Belgian ports of Antwerp and Ostend, and the French ports of Dunkerque, Boulogne and Calais, were among Nazi bases heavily bombed.

Boards of tanks, battle fleets, warships and railroad yards battered with explosives and incendiary bombs, the air ministry said. German merchant ships also were attacked and one large supply ship was hit by five bombs.

CAISAS BATTERED
A supplementary bulletin issued by the ministry said a detailed account of the R.A.F.'s described bombs blown up and set off by many huge explosions of Boulogne and said that Calais harbor was "terribly damaged" from British dive-bombers which let go stocks of bombs "methodically hour after hour."

Man Is Killed As Automobile Rolls Over Bank
Relative to Edmonton Bulletin.

PEACE RIVER, Sept. 23.—A fatal motor accident occurred on the Peace River, about 10 miles from the river bridge, on Saturday night when Charles Erickson, said to be a resident of the R.A.F. area, was killed when his car rolled over a bank.

Smith and McLennan, who were riding in the car in which he was killed, were thrown from the car and killed. The car rolled over a bank and caught fire. The victim received a broken leg.

Dr. Sutherland was soon at the scene and the body was taken into town, where an inquest was held Monday afternoon.

Italian Force Is Hit By Heavy Bombs

British Mediterranean Fleet Fires Scores Of Shells Into Italian Camps and Supply Depots in Egypt

By LARRY ALLEN
Associated Press Staff Writer

ALEXANDRIA, Egypt, Sept. 23.—Britain's Mediterranean fleet has dealt another punishing blow to Italian preparations for a big-scale drive into Egypt toward the Suez canal, it was announced today.

Shells of the Royal Navy swept close to shore off Sid Barrani, 240 miles west of the Suez canal, and fired scores of shells into the Italian camps and supply depots, with "good results," the communique stated.

At Sid Barrani, Marshal Rodolfo Graziani has been organizing his Italian and Libyan divisions for the continuation of the offensive which already has thrust 60 miles into Egypt along the coastal road.

A Reuters dispatch from Alexandria said an eye-witness had seen the entire village of Sid Barrani, which was Italian troops, blown to bits when British troops detonated land mines planted in the area. The village had been "wiped out," the witness said.

It was night and the Atlantic was heaving under the lashing of hail and rain when a U-boat fired a torpedo into the hull of a liner without warning last Tuesday. The Nazis must have known the ship was able to hold across great seas to their rescue.

One hundred and thirteen survivors of the 406 passengers and crew were taken to hospital, but that constantly were aware for as long as 14 hours before a British warship was able to hold across great seas to their rescue.

WASHED FROM BOATS
The ship was carrying 406 children and adults from the boats and off the raft. Scarcely did the sinking of the ship, the torpedo struck where many boys were asleep and merciful instant death saved them from worse horrors.

Text of King George's Message will be found on Page 3.

FRANCE FOR A.P.
The King also disclosed that he had authorized a George medal for wider distribution.

Expressing a special word of gratitude to the men and women of the Air Raid Precautions services, he said the "devotion of these civilian workers, firemen, salvage men and many others in the face of grave and constant danger has won a new renown for the British nation."

Much has happened since September, 1939, His Majesty said. Great battles have fallen. Armies of invasion were massed in Britain's shores. Enemy air fleets had launched day and night attacks against Britain's cities.

"We stand in the front line," he continued, "to champion those liberties and traditions that are our heritage."

Among the youths for whom he said the King laid the following line: "We have no doubt that you will be able to do this, and we are sure that your efforts will be a great help to the nation."

Four Of Detained Japs Released By Singapore Police
SINGAPORE, Sept. 23.—Four of a Japanese detained by police Sunday were released today, but the Japanese government said it was charged before a magistrate with violation of the official security of Singapore.

Churchill's Warning
Any serious relaxation of vigilance, however, by the British because of weather conditions, might offer Hitler a sudden opportunity to risk invasion. Prime Minister Churchill has this possibility in mind in his warning today that the Germans might come at any time. But as long as Britain's present preparations prevail, the perils of a late attack and log on land should insure protection.

Japanese Ready To Meet Any 'Uncalled-For Intervention' Is Statement As Army Marches Into French Colony

WASHINGTON, Sept. 23.—State Secretary Cordell Hull declared today the status quo in Indo-China is being upset through direct and once again he voiced the disapproval of the United States. He would not discuss what measures might be taken by the government as a result of Japan's action.

But he said that the United States is not taking any action to prevent Japan from proceeding with its action in Indo-China.

HANOI, French Indo-China, Sept. 23.—Japanese forces resumed an attack on French positions near Langson, about 12 miles within French Indo-China, late today, informed sources reported, after Japanese warplanes had bombed the airfield there.

TOKYO, Sept. 23.—The Japanese army and navy, described in authorized quarters as prepared to meet any "uncalled for intervention" by third powers, began a southward march into French Indo-China today.

(The United States and Great Britain have informed Japan officially of their interest in maintenance of the status quo in Indo-China.)

The action was described in army and navy communiqués as a "final settlement" toward a final settlement of the China war and the "new order" in east Asia.

An imperial headquarters communique said Indo-China forces which had "unlawfully" resulted the occupation in a "final settlement" of the China war and the "new order" in east Asia. The Japanese army and navy, described in authorized quarters as prepared to meet any "uncalled for intervention" by third powers, began a southward march into French Indo-China today.

CLAIM "UNDERSTANDING"
The occupation was the result of an "understanding" reached with French colonial officials at Hanoi, Indo-China capital, at 4:30 Sunday, it was announced.

Despite "some skirmishes" at Dien Bien Phu, the northern frontier, where some Japanese troops had entered the territory from the Chinese province of Kwangsi last night, the advance was declared to be proceeding without incident, the communique said.

Domestic Japanese news agency which has close connections with the foreign office, fretted that powers behind the scenes were "unhappy" over the result of a friendly agreement between German-dominated France and Japan. But the agency stated "competent quarters" as asserting that the Japanese action is "unlawful for intervention."

CHINA IS READY
By establishing themselves in Indo-China, Japan's military and naval forces will be in a position to attack from the north and to maintain the southern stronghold of Gen. Chiang Kai-shek.

The British Broadcasting Corporation quoted Changsha, Hunan, news agency as saying China had made all preparations for an attack from Indo-China and that martial law was proclaimed in Yunnan and Kwangsi Provinces.

The southward march took place country's non-aggression pact with France. The French news agency Havas has charged that Japan is behind the Thailand demands.

NAZI PLANES ARE ROUTED IN DISORDER

German Air Force Dispersed In Third Raid Of Day On London

LONDON, Sept. 23.—Heavyweight bound London thrones tucked into air raid shelters late today as German raiders were reported approaching the capital in the third raid since dawn.

One of the German attacks on London, but it was not without incident because the sky was heavily overcast.

Royal Air Force planes apparently dispersed any raiders, for soon after the raid started London resumed its normal activity.

By DAN CAMPBELL
British United Press Associate, London
LONDON, Sept. 23.—Four great fleets of German planes were turned back in disorder today from an attempt to attack London as a source of predictions were that the attack would be made in the next few days.

87 Children Among 293 Persons Killed When Sub Sinks Ship

Continued from Page One

Newspaper. The Evening News commented that "if the loss of this disaster is properly and promptly learned there is no reason why the children's overseas reception board should not be set up with all the safety that is humanly possible."

"This is the first time since the war started in 1914 that the Manchester Guardian has an editorial. The claim and horror of it will be remembered long after Hitler and his tools have been swept from power."

REUSE PRECAUTIONS

The horror with which news of the disaster is received will be mingled with astonishment that a calamity as grievous could have happened. The Glasgow Herald said:

"The whole circumstances of the sinking and the heavy loss of life will no doubt be thoroughly investigated at the earliest moment. No other scheme of action would be so possible if the scheme for dispersing children overseas is to be realized in the near future. And since there are many reasons why children should not be dispersed, it is to be hoped that the investigation will lead to a thorough revision of the precautions and safeguards hitherto employed."

The confusion was the first in the transport to safety of nearly 300 youngsters, but was not the first time a Nazi u-boat had imperiled overseas. However, when The Netherlands liner Volendam was torpedoed Aug. 30, 320 life refugees from Italian warships and 800 others en route to Canada were saved. Only two members of the crew perished with the liner.

DELAY ANNOUNCEMENT

The government waited until today to announce the tragedy. It must a week ago to give welfare workers opportunity to study the children's parents in England. Liverpool and Middlesbrough exhausted survivors were taken to a northern port of England.

The ship, her name undisclosed, sank in a stormy sea about 10 minutes after she was attacked at 10 p.m. last Tuesday, the announcement said.

One boy comforted a dying nurse, first before rescue, with the words: "I can see boats, nurse. It won't be long now."

The captain went down with his ship, about to the children to "the care of parents."

The announcement did not identify the submarine in last Tuesday's war episode, but German planes appear, a champion of the children's overseas reception board, the "British example of the heroism of the German people."

HITLER BEARS GUILT

Under an editorial heading of "Hitler," the Daily Telegraph said: "Hitler, himself, directly, fully and personally bears the guilt of the world's war. He never forgets it."

The Times called the sinking "monstrous" and added: "Germany was of warfare known to restrict of concentration."

The government announcement said: "Tragic circumstances—the sinking of the ship—have caused the loss of 293 persons, including 87 children."

The survivors, 13 children, 18 women and 82 men, were taken to a hospital in Liverpool. The ship was carrying 293 persons, including 87 children.

PROVINCIAL BRIEFS

Riel Rebellion Guns Registered At North Point

The registration of firearms ended September 15, brought in the Fairview detachment of the R.C.M.P. some very ancient weapons which had been treasured away in attics.

John Cardinal, living ten miles north-west of Fairview at Gage, brought in a muzzle-loading shotgun having a serial number, but no model or calibre. This gun he claims was used in the outbreaks of the Riel Rebellion.

Working near Fairview during registration, Louis Leprieux, of Dikowville, registered two muzzle-loading, first lock style rifles. These rifles, kept as souvenirs, handed down from generation to generation, also went through the Riel Rebellion, and were used by Louis Riel's supporters.

TWO HILLS

Peter Odnak had his old store torn down and now a fine big building for the purpose of general store is being erected.

Mr. Molloy is back in his grocery and butcher shop business in the same building he had operated quite a few years ago. He replaced Mr. Mike Jura who formerly bought the business from Mr. Molloy.

BASHAW

Funeral services for Mrs. Hannah Helting, aged 80 years, who passed away Monday after a long illness, was held Thursday at 2 p.m. at the St. Paul Lutheran Church.

Rev. G. Ekland conducted the funeral services.

Last rites for Mr. Robert A. Dore, aged 72, who passed away Sunday in the Lacombe Hospital, was held in the United Church on Sunday at 2:30 p.m.

Rev. C. Warren conducted the funeral services.

VETERANS

The Veteran Drama Club held its annual meeting in the Exchange office Monday after a long illness, was held Thursday at 2 p.m. at the St. Paul Lutheran Church.

Rev. C. Warren conducted the funeral services.

FAIRVIEW

Fairview Light Plant Installs Late Equipment

Stan Emmett, Herb Mackenzie, and Alf Burroughs, Electrical Insulators, chief of all of Edmonton, have installed a new electrical Diesel unit at the Fairview light and power plant, operated by Oscar Johnson. This is the latest equipment to be had in an individual lighting plant.

A provincial government two-day annual tuberculosis clinic was held at the Fairview hospital on September 18 and 19, under the supervision of Dr. J. C. MacPherson, when over 25 patients were examined.

At a special meeting of the Fairview Business Men's Association, it was requested that Mr. J. Walker, mayor, reconsider his intention of leaving Fairview. All merchants have supported an agreement to discontinue selling bread and all consumers purchasing bread are to pay if direct from Mr. Walker.

The importance of procuring for the early completion of a road west on Highland Park was also stressed.

MORE ABOUT Today and Tomorrow CONTINUED FROM PAGE FOUR

administered then a responsible head will be needed in order to insure decisions.

As the program passes from the stage of paper contracts into actual production, it will absorb such a large part of the economic capacity of the country that defense will become the dominant factor in our economy. If it does not do this, the program will have been a failure. Once it begins to be the dominant factor in the sense that defense forces have priority in all the chief markets, we shall be at the stage of sacrifice. It will be necessary to tax for the purpose of reducing civilian consumption, to ration commodities of which there is insufficient supply, to increase the hours of work when there is insufficient skilled labor, and to bring in apprentices more rapidly. No one is selling business men the truth who leaves them with the impression that "total defense" can be had without modifying the main business of the nation. This transformation cannot and will not be effected by the ordinary civilian

McLennan Pioneer Passes Following Lengthy Illness

One of the pioneer old pioneers Mrs. Peggy Kyn, age 83, who came here in 1914 before the great passed away Tuesday, Sept. 16, 1940, after a long illness. The funeral was held in the United Church, Rev. H. Stevenson, officiating.

Mr. B. Colman met with an accident Wednesday evening when his car collided with another on the highway about two miles from McLennan.

commercial process alone. And this brings us to the second problem which is how such a mobilization of our resources can eventually be demobilized again.

This is the problem of any post-war period, and it is the problem which Europe and America faced at incredible cost to solve twenty years ago. We must not imagine that it is an easy problem to be solved into ploughshares when the greater part of mankind is carrying a sword or making one. So, it is all very well, it is immutably right and proper, to take care in legislation for defense that they should not be made permanent. But the problem of demobilization will not be solved by cancelling the power that caused the mobilization.

Demobilization itself will have to be administered with the exercise of great powers and the expenditure of much money. If it is not, it will produce an economic catastrophe and breed a revolutionary condition. It seems to me clear that the world returned to normalcy too quickly after the last war, and it was this hasty return to normalcy that has brought us to this point.

It seems to me clear that the world returned to normalcy too quickly after the last war, and it was this hasty return to normalcy that has brought us to this point.

Demobilization itself will have to be administered with the exercise of great powers and the expenditure of much money. If it is not, it will produce an economic catastrophe and breed a revolutionary condition. It seems to me clear that the world returned to normalcy too quickly after the last war, and it was this hasty return to normalcy that has brought us to this point.

Uruguay Charges Plot By Germany To Control Nation

MONTEVIDEO, Uruguay, Sept. 23.—Attorney-General Luis Alberto Bousso charged Sunday that Nazi activities in Uruguay—including a plot to turn the country into a "German colony of peasants"—were directed by Julio Dildorf, press attaché of the German legation.

The formal report on an investigation by Bousso said "legal action" against Dildorf "is impossible at this time because of his diplomatic status."

When correctly completed, the Alphabet shown above will contain each letter of the alphabet used once only, in familiar English words. The all the letters given below, crossing them out as you put them into the blank squares. You'll get a hint to locate the Q and U first. The only Q will give you, is that the 3-letter vertical is neither QUART nor WHART, but its middle letter is an A, of course.

BRITISH GUNS ROUT ITALIANS AT ALEXANDRIA

ALEXANDRIA, Egypt, Sept. 23.—British anti-aircraft fire drove off Italian planes which tried to bomb the naval base here Sunday. British general headquarters disclosed, announced also that Italian planes attacked for home when the British gunners filled the air here with anti-aircraft fire.

At Hafa 23 Arabs were killed and the mosque and a Modern cemetery damaged by bombs.

A Reuters News agency dispatch said that an explosion reported from the entire village of Hafa, 10 miles from Alexandria, was caused by a British plane blown to bits when the British fired at it from the air.

Three in advance. Sir Bernard is on the Mediterranean coast of Egypt in the line of the Italian's eastern advance.

Dominion's Naval Strength Grows As Ship Is Launched

A WEST COAST CANADIAN PORT, Sept. 23.—Canada gained another naval vessel with the launching of the west coast Canadian port of His Majesty's Canadian ship Chilver, named after the agricultural center of British Columbia's Prerogative.

The vessel, of the Corvette type, was christened Saturday by Miss M. Menzies, daughter of the builder, who cracked a bottle of champagne against the hull as it slid into the water amid the booming of ship and plant whistles.

May Leave Homes

LONDON, Sept. 23.—Health Minister Malcolm MacDonald asked 14 London boroughs Sunday night to requisition available vacant houses for the use of 100,000 Londoners who may have to leave home because of Nazi bombs.

A curious skin handler won't let African natives led to the discovery of the animal known as the okapi. For a long time, such hunters were the only ones of evidence pointing to the existence of such an animal.

Help Smash Hitler

War Savings Campaign On The March

The 2nd War Loan campaign successfully concluded, the War Savings Certificate and Stamp sales continue as the government's means of financing Canada's war effort. The War Savings Committee is now on a "Smash Hitler" campaign to enlist 200,000 regular war savers. Reproduced is the new frontispiece of a new pledge form that will reach a very Canadian home within the next week.

CANADA'S WAR LOAN CLOSES WELL OVER TOP

Issue Is Over-Subscribed By More Than 42 Millions

SECOND FATAL POWDER BLAST IN NEW JERSEY

DOVER, N.J., Sept. 22.—Two persons were killed and six injured today in the explosion of a United States Army's military arsenal.

It was the second fatal explosion in the Dover area within a fortnight, the explosion of a smokeless powder line at the Hercules Powder Co. of the Hercules Powder Co. in Dover, N.J., Sept. 19, killed two men and injured six.

Col. A. B. Rogers, public relations officer at the arsenal, said the explosion occurred as employees were taking apart fuses of old shells. A military board began an immediate investigation.

BRIGHTON, Ont., Sept. 22.—One member of the Royal Canadian Air Force was killed and three others escaped injury near here Saturday when two training planes from nearby Trenton training center collided in mid-air.

One plane crashed killing Airframecraftman A. E. Porter of Morris, Minn., while the pilot, Flying Officer C. C. Moore of Trenton, parachuted to safety. The other plane, piloted by Flying Officer George Hill of Picton, N.S., and Leading Airframecraftman M. N. Sharpe of Trenton, Ont., made a successful forced landing.

Airframecraftman Porter apparently was injured when the planes collided and was not able to bail out. Although Flying Officer Moore suffered injuries, including rib fractures, in his parachute jump, he ran quickly to the crashed plane and lifted the tail to assist in the removal of his mechanic's body.

Alexander Johnson, resident across the road from the field where the plane crashed, said he went to assist Moore from the parachute. Three planes were flying in formation when the collision occurred. The rudder assembly was struck off Moore's plane by the impact of the crash and the propeller of Hill's machine was damaged.

Mr. Nichols has been a member of the Edmonton staff of the London Life for the past seven years and has proven himself an able life insurance salesman. His friends will be pleased to hear of his well-merited promotion.

you'd take those to fellers an' put 'em in jail. The sheriff, he give yuh the keys. Me, I read'n I'll ride off to the hills again. I hope," he added facing those in the Roaring Zephyr pleasantly, "that yuh all realize the benefits of law an' order."

(To Be Continued.)

SEATTLE, Sept. 23—After an aerial inspection of military bases from Tongue Point, Ore. to Sitka, Alaska, three American members of the United States-Canada joint defense board left for Washington, D.C., via Chicago aboard a United Air Lines mainliner late Saturday.

The sheriffs don't christened me. That Sonny Holman you all mistake me for, he's a most horrific outlaw. I hope nobody 'till goin' to make the same mistake again, especial as if Tilford gets many more guards in like those two. I'll have to be hangin' aroun' Moievie's lot."

There was a pause, and then a roar of laughter. It was not wholly

With Captain Hill were Commander Forrest T. Sherman of the navy and Lt-Col. J. T. McNarney of the United States army. They met with three Canadian members of the Joint board in Vancouver, B.C. recently, and Captain Hill said both countries planned to build their defences separately but with a view toward joint use if necessary.

I'm my muvver's darlin' child today an' a zample to John. Anyway, it's sort ob mean weather an' a feller'd might as well be in school.

Parents

World-Wide News Pictures By The Edmonton Bulletin Cameramen

King and Queen Carry On With Their Duties Despite Third Bombing Of Buckingham Palace

This photo-diagram of Buckingham Palace, centre, shows how the royal residence suffered from repeated German aerial attacks. Their Majesty's private chapel (A) was completely wrecked by one great bomb. A view of the wrecked chapel is shown, left. The King and Queen have made it a daily custom to pray in this chapel. Two more bombs fell in the quadrangle (B), tearing great holes in the paving and damaging surrounding walls. The front of the palace at top of diagram, was piled by rubble (C) and the area between the statue of Queen Victoria and the front entrance, facing east towards St James' park. A clean-up squad is shown, right, around the crater. The building shown at the bottom of the area inside the dotted lines is the swimming pool demolished in the first assault on the palace.

A London Family Carries On

Alive because they were in their air raid shelter when a Nazi bomb demolished their London home, this British family looks over the few articles they were able to salvage from their smashed home. Their smiles indicate they can "take it" and carry on.

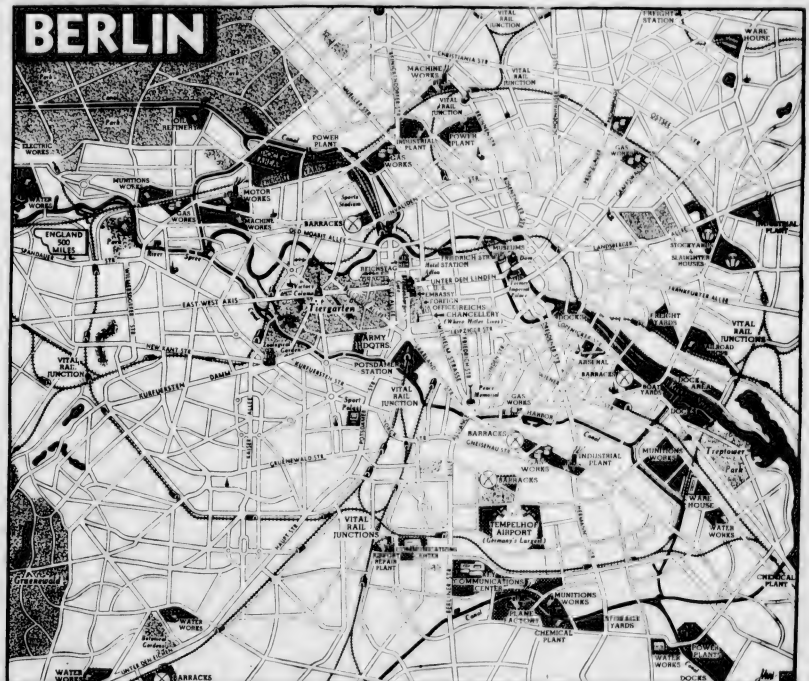

Sub-Chaser Launched At Georgian Bay Port

This sleek sub-chaser, newest addition to Canada's navy, was pictured as it hit the water in a broadside launching at a Georgian Bay port. Not waiting to be christened in the customary fashion, the corvette snapped a heavy chain holding its bow and plowed into the water. The traditional bottle of champagne was smashed across its bow as it rode the launching waves in the slip.

Italian Prisoners Of War In Near East

Italian soldiers captured during skirmishes in Libya are shown lined up for kit inspection in their desert camp. General Romolo la Tronci was captured with this batch.

Military objectives cluster in Berlin, the world's third largest city.

The German passion for order has made the bombing task easier. Similar industries lie together along the banks of the River Spree. There are mile on mile of industrial plants.

The west and southwestern areas of Berlin are largely residential. But some of the largest industrial works, such as the Siemens-Schuckert electrical plant recently bombed, lie close to residential districts that a poorly aimed bomb would fall in the midst of squares populated like anthills.

RAILROADS, AIRPORTS

The excellent inter-city rail system linking the major Reich railroads that center in Berlin is especially vulnerable. Scores of junctions and depots are easy marks for air attack. Vast rail yards sprawl in the south and southeast sections.

Machinery manufacturing plants necessary to the Nazi war effort are clustered in the northern section of the city.

Much of the textile industry of the country is centered in the northeast and eastern areas.

The south and southeast are literally a hive of important industries.

Tempelhof airport, one of the world's greatest, is on the southern edge of the capital. Important aviation-serving establishments lie close by, together with communications nerve centers.

The seat of government and the major government structures are almost in the center of Berlin, off the main artery, Unter den Linden.

The autobahn, the great German highway, radiates in all directions from Berlin. An irreplaceable asset in the quick movement of troops and supplies within the Reich.

they have lately become something of a liability. British pilots follow the autobahns in the moonlight and are led to major industrial centers.

PINE WOODS ARE FORTIFIED

To protect the heart of her empire, Germany has raised the city with resolutely the greatest assembly of anti-aircraft artillery anywhere.

The pine woods north and west of the town bristle with emplacements.

Small airports with underground hangars have been strategically placed around Berlin, housing interceptors to meet the bombers.

But recent success of British raids prove again what military men warned early in the war—there is no adequate defense against night bombing.

London has found it out.

Berlin is learning.

Looking Aloft In "Mare Nostrum"

An anti-aircraft crew aboard a British warship in the Mediterranean, which the Italians call "Mare Nostrum," keeps a sharp lookout aloft for H. Duce's bombers. British sailors have scoured the sea for signs of the Italian fleet, but only the bombers come up to cause them some "annoyance."

Air Raid Presents Perambulator Parking Problem

These crams aren't for sale. For from it. Their small occupants, at the moment photo above was snapped, were safely waiting in an air raid shelter in London while Nazi bombers thrust at the British capital. Shelter marshal, left, keeps an eye on the line of baby lairs while mothers wait outside for the "all clear" signal.

Looking Them Over

By Jack Kelly
Going Fast!
Make It Solid
Danger Spot

TODAY "Shag" Shagrin, the man responsible for the ticket sale of the Edmonton Junior Football League, is feeling much better. The reason is that the Edmonton Athletic Club disposed of its initial batch of "Shag" tickets in something like 15 minutes and came back to him for more.

The league will not get underway until Friday night, but in the meantime the E.A.C. is definitely leading in the first phase of activity, that of selling enough tickets to give the league a solid foundation for the season. If the South Side Spiffers and Maple Leafs can equal the feat of the E.A.C., the new deal in Edmonton football will be well on its way to success.

Actually, though, the accomplishment of the E.A.C. was anything but unexpected—although no one knew better than I do how good the tickets would sell. I remember that when I first saw the "Shag" tickets, I was struck by the great amount of time that junior football has been given to Edmonton. Three years of "miserable" football has produced several seasons of "miserable" football. The reason for this is that the league has been in a hurry and a flurry of enthusiasm with little or no thought given to setting up organizations that will endure indefinitely.

South Side Club Coming

INCIDENTALLY I hear that a move has been launched to build up a "South Side Club" in the city. This move will take the form of a club that will play in the Edmonton Athletic Club and the South Side Athletic Club. Such an organization is a most welcome addition to the city's sports life. It will give the "South Side" a permanent home and a place in the Edmonton sports picture that is gradually taking form with the growing years.

Most of the time our sport here has been in a middle of pre-season uncertainty, mid-season financial trouble and a general hand-wringing after playoffs. The reason for this is that the league has always been launched in a hurry and a flurry of enthusiasm with little or no thought given to setting up organizations that will endure indefinitely.

For example, there is no reason why "South Side" should not exist as a permanent organization. The reason for this is that the league has always been launched in a hurry and a flurry of enthusiasm with little or no thought given to setting up organizations that will endure indefinitely.

Once such an organization is set up and functioning there is only one major threat to its success—the inertia of time on the executive. Such a club will have a better chance of success than one that is launched in a hurry and a flurry of enthusiasm with little or no thought given to setting up organizations that will endure indefinitely.

The new way to build against this is to build a permanent organization. This will give the "South Side" a permanent home and a place in the Edmonton sports picture that is gradually taking form with the growing years.

BUFFALOES WIN SOFTBALL GAME BY 17-4 SCORE

Buffaloes won from Riviera Quits 17-4 in an exhibition softball game at Kingsway park Sunday afternoon. The city league champions were strong for the northern girls who appeared to be a nervous first few innings, but improved as the game progressed. The Buffaloes led the last four frames.

The Big Orange girls scored seven runs in the first inning, leading seven runs to the Buffaloes. The Buffaloes led the last four frames.

Deborah Denver acted as catcher for the Buffaloes team, but when the Buffaloes led the last four frames.

Baer Hurls No-Hit Game For Dodgers

Tommy Baer never pitched his best in his weather and yesterday afternoon was no exception. He went to the mound for the Dodgers in the first inning. The game was a double-header that brought the third and fourth games of their best of five challenge series and left them with two wins each. The fifth and deciding game will be played at Renfrew park next Sunday afternoon.

Behind the pitching of Walter Johnston of Ponoka, the All-Stars won the first part of the twin bill, 9-4. In the second tilt, hobbled to seven innings, Duke Baer pitched no-hit ball to give the Dodgers a 6-1 victory and deadlocked the series again.

DETROIT, Sept. 23.—Cleveland Indians jumped back into the thick of the American League pennant race Sunday with a 10-5 conquest of Detroit Tigers that was accomplished with the assistance of five home runs.

The triumph, fireballer Bobby Feller's 27th of the year, pushed the Tribe-men to within a single game of the leading Tigers. It also proved the way for a spectacular finish to the flag drive when the teams end their schedules in a three-game series starting at Cleveland Friday.

Feller aided his own cause with one of the Cleveland homers, the other Cleveland circuit bloopers were delivered by Hal Tracy, Roy Weatherly, Ben Chapman and K. Kellner. All of the homers came with the bases empty.

Hamk Greenberg of Detroit belted his 40th of the season.

Beginning this Tuesday, the Tigers have a two-game series with White Sox and the Indians meet the Braves in a pair. All of which means that the pennant chase probably will not be decided until that three-game series starting next Tuesday between the Tigers and the Indians at Cleveland.

This Is An Expert Clop On The Chops

It took the speedster's 1,100,000 of a second photographic speed to catch this sparkling bit of action during the recent Bell Canada midweek main event at Madison Square Garden.

Caught exactly Garcia's pink-panicked face and rubbery knees as Bellone landed a terrific left. See how Garcia's face is battered after the up-and-coming Sisco pummeled him practically at will during the entire bout. Garcia, former holder of the New York half of the 160-pound crown, hardly landed more than 10 blows all through. By whacking out a 16-round decision Bellone earned a bout with Champion Ken Overlin.

War Fund Gymkhana Draws 1,500 Spectators

EDMONTON'S riding colony went on parade Sunday afternoon in a gymkhana in aid of war funds and the program gave close to 1,500 spectators a flock of thrills for which they contributed \$100 to assist in the business of liquidating a misguided Australian corral and an Italian who is just corrupted.

Another highlight was the riding of Miss Ruth Stevenson who took part in a number of events and gave a polished performance.

The most one held on the grounds of the Edmonton Jockey Club, 183 street and 104 avenue.

Ottawa Wins Exhibition Game With Balm Beach
OTTAWA, Sept. 23.—Ottawa Rough Riders, champions of Eastern Canada and the Big Four, hammered out a 10-0 victory over Toronto Balm Beach of the Ontario Rugby Football Union Saturday in an exhibition game that opened the capital's football season.

A crowd of little better than 2,000 watched Rose Trimble's champions win with comparative ease despite the fact that eight of last year's team were not on the field.

The Riders mixed in a little of everything they are used to. They got a ground game going through line, Orville Burke's forward passes, Benny Wade's line-slugging and Tiny Germain's nunchuck play.

Wadsworth came through for the Riders in the second quarter, on three successive tries through the Toronto line, he made six yards for a touchdown and Herman added the extra point for the Riders.

Prior to that a bad snap by Toronto's Blue Gies gave Ottawa a safety touch and two points. In the same quarter Wadsworth kicked off to Germain who was downed behind the back-line for a single Ottawa point.

In the third quarter Bobby Porter, star of the Toronto backfield who handled most of the Riders' defense and passing duties, was roused on a kick from Arnie McWaters for the Riders.

Build Million Bunks In Air Raid Shelters
BY J. F. SANDERSON
Canadian Press Staff Writer
LONDON, Sept. 23.—Construction of 1,000,000 bunks in London's air raid shelters and distribution of air rations to all people in the Metropolitan area was announced by the government today.

William Macdonald, parliamentary secretary to the Ministry of Home Security, announced the construction of the air raid shelter construction program and the commencing of the distribution of air rations.

All shelters will be kept open 24 hours seven days a week.

In addition to bunks, sanitary appliances and the commencing of the distribution of air rations.

Pastor Who Served In Edmonton Many Years Ago Is Dead
WINNIPEG, Sept. 23.—Rev. Andrew Browning Baird, 86, professor of church history at Manitoba College, died here Sunday.

Dr. Baird was the first moderator of the Manitoba conference of the United Church, after a period of the ministry starting at Edmonton, where he began his educational work, teaching at Manitoba College for more than 40 years.

Quebec Colleges To Have Military Training Course
MONTREAL, Sept. 23.—Three of four major universities in Quebec province will make military training compulsory for students in 1941, while the fourth is still undecided.

The National Defense Department has left it to the universities of Quebec to decide whether they will have compulsory military training courses.

McGill University and University of Montreal, both located here, will have compulsory military training courses.

Quebec University at Laval University in Quebec City will have compulsory military training courses.

Alien Seamen Are Held In Montreal Newspaper States
MONTREAL, Sept. 23.—The Montreal Standard and Sun newspaper has learned from authoritative sources that more than 40 alien seamen have been taken into custody in Montreal by Canadian immigration authorities.

The newspaper says the men are members of the crews of four ships flying a neutral flag.

Trouble with the seamen started in the eastern Canadian port while the vessels were en route to Montreal.
